- MAW: Minimum Acceptable Weight 20 metric tons per container
- TAW: Target Weight 22 metric tons per container
- WSR: Waste Shipping Regulation, is the EU regulation no. 1013/2006

## SERVICE DESCRIPTION

Temiz Evren ("Clean Universe" in Turkish) is a brand by Greensley, for procurement and logistics of plastics scrap material to be processed by authorized recovery plants in Turkey. We have a dual role in the process: procurement agents and freight forwarders.

As procurement agents, we sign the recovery contract with European customers (in this case "customer" is the customer buying a recovery service, and also the "customer" is the supplier of material on delivery) as per Article 18 WSR on your behalf as recovery plant, on an exclusivity basis.

As freight forwarders, we provide the logistics service from origin port to CFR [destination port in Turkey].

## MATERIAL

Under the brand name Temiz Evren we deliver to you recovery plants in Turkey, plastics material suitable for your processing and your manufacturing. The origin material offered for your production has three very interesting peculiarities which will be detailed to you. These peculiarities make material on offer very efficient and valuable compared to other types of origin materials.
